CONTENT

/ OUR COMPANY

We are an independent Czech studio focused on developing immersive games that deliver unique experiences and bring your creativity to life.

Bohemia Interactive was founded in 1999 by Marek Španěl, Ondřej Španěl, and Slavomír Pavlíček. Our first major release was ARMA®: Cold War Assault, which won a number of prestigious awards and turned Bohemia Interactive into a household name.

Since then, Bohemia Interactive has grown from a ragtag bunch of garage devs to an international family of over 500 creatives. Our goal is the same as it's always been - to develop unique and innovative games that empower people to explore, create, and connect with others.

/ OUR GAMES

Our most acclaimed titles include:

ARMA® 3 - a critically-acclaimed first-person shooter set in a massive military sandbox. It has sold over 10 million copies to date.

ARMA REFORGER® - the latest installment in our critically-acclaimed Arma series, is the first taste of the future of the Arma Platform on the all-new ENFUSION® engine.

DAYZ® - an open-world zombie survival sim that was released in 2018 as an official standalone. It has currently sold over 6 million copies.

VIGOR® - a free-to-play looter shooter that was released in 2019. Over 5 million players have enjoyed the game thus far.

YLANDS® - a sailing adventure game brimming with exciting exploration and encounters with diverse flora and fauna.

SILICA® - an immersive RTS/FPS hybrid and a product of the Bohemia Incubator™. It entered Early Access in 2023.

OUR GAMES

ARMA® 3 refines and masters the military simulation genre.

Gaming Nexus

ARMA® 3 is a critically-acclaimed first-person shooter set in a massive military sandbox.

You can also design your own missions and scenarios and share them with ARMA®'s active community.

Operate a staggering range of vehicles and weapons, conduct coordinated attacks over land, sea or air, and engage in solo or multiplayer action, all while experiencing true combat gameplay.

/FAST FACTS

- Limitless opportunities for content creation
- Countless mods to choose from
- Over 10 million copies sold

ARMA

REFORGER

ARMA REFORGER® shows that a promising new era for the franchise is about to begin.

Digital Trends

ARMA REFORGER®, the latest installment in our critically-acclaimed Arma series, is the first taste of the future of the Arma Platform on the all-new ENFUSION® engine.

Choose your side and join the fight for supremacy in the multiplayer Conflict game mode, engage in cooperative gameplay in Combat Ops, or take on the role of Game Master and create and curate scenarios for others to enjoy.

Experience authentic Cold War combat and join the struggle for the sprawling, mid-Atlantic island of Everon (51 km²) and its smaller, offshore territory, Arland (10 km²).

/FAST FACTS

- Built with our proprietary ENFUSION® engine
- Available on PC and Xbox
- Coming soon to PS5...

DAYZ FROSTLINE

WISHLIST NOW

DAYZ

DAYZ® has the tools to create incredible stories and unforgettable player interactions.

The Sixth Axis

DAYZ® is an open-world survival game set in post-Soviet Chernarus after the zombie apocalypse.

Scavenge the gritty wasteland and dilapidated towns for water, food, and weapons. Keep your eyes and ears open because zombies aren't the only ones after you.

There are other survivors out there as well, and they're just as desperate as you are. Go solo, team up with friends, or play along with fellow survivors if you dare. Maybe they're friendly. Or maybe they're just waiting for the perfect moment to steal your gear and send you to an early grave.

There's only one rule in DAYZ®: stay alive.

/FAST FACTS

- Full release in 2018
- Winner of Steam's Better with Friends Award 2019
- Over 6 million copies sold

PC Gamer

Exciting free-to-play feels like a whole new adventure every session.

The Daily Star

VIGOR® is a free-to-play looter shooter survival game set in post-war Norway. Nuclear war has left Europe devastated.

All that remains is a tiny slice of post-apocalyptic Norway. You are an Outlander with one simple goal: build your Shelter and stay alive.

Roam the desolate countryside for resources. Loot as many weapons and materials as you can before radiation or a fellow survivor wipes you out.

Whatever you do, make sure to get to the airdrop before anyone else.

/FAST FACTS

- Released in 2019
- Available on Xbox, PlayStation, Nintendo Switch & Steam
- Three exciting game modes
- Over 20 million players have ventured into the Outlands

YLANDS

The possibilities are endless, which is why so many keep coming back to this game after their first experience.

Happy Gamer

YLANDS® is a low poly adventure game, filled with exploration of different regions, encounters with animals and enemies and sailing on vast seas of the world.

You are on your way to join the famous Classy Adventurers Guild so that you can finally get your own ship and your first mission. What could go wrong?

Not to spoil anything, but you end up on a deserted island, where you have to make do with the materials it provides to craft tools, build a ship, and be ready to sail towards completing your mission. Be careful though! There are wild animals, mutants and even ghosts! How you shape your adventure is completely up to you. No get going because adventure awaits!

/FAST FACTS

- Full release in 2019
- Available on Steam, MS Store, Mobile and Nintendo Switch
- Adventure mode, Sandbox mode, and Editor mode (PC only)

BOHEMIA INCUBATOR™ PROJECT

SILICA

With its unique gameplay mechanics, immersive world, and positive player reviews, SILICA® is poised to become a leading force in the gaming industry.

Game Sensor

SILICA® is an RTS/FPS hybrid where up to three factions battle for control of the fictional planet Baltarus.

Lead from above as a Commander, or experience the action first-hand, alone or with friends.

Join one of two human armies, or hunt humans down as territorial aliens.

Your mission is simple: harvest the valuable element Balterium, which can power human civilization for generations to come.

/FAST FACTS

- Three exciting game modes to choose from
- Entered Early Access in 2023
- Available on PC

 BOHEMIA INCUBATOR™ PROJECT

/ TECHNOLOGY

ENFUSION® represents 25 years of experience in game engine development packaged in a powerful toolset. Our engine is perfect for building open world games, but it's also meant to serve as a universal engine. Our custom-built engine can support any type of game on a multitude of platforms, and its intuitive tools cover the full creative spectrum of modding and game development.

POWERING THE FUTURE OF BOHEMIA'S GAMES

ENFUSION® stands out for its ability to create expansive sandbox multiplayer worlds that accommodate large numbers of players. It offers persistency, integrated backends, including a workshop featuring cross-play options with user-generated content. Additionally, it also supports community server hosting. All this with advanced graphics, detailed simulations, and excellent performance.

Meanwhile, our suite offers creators the same powerful set of tools our own developers work with. Whether we're looking to create a new game, cool new terrain, or simply change the way a few assets behave, ENFUSION® empowers us to do it all.

This combination of elements, makes ENFUSION® a truly unique and standout game engine.

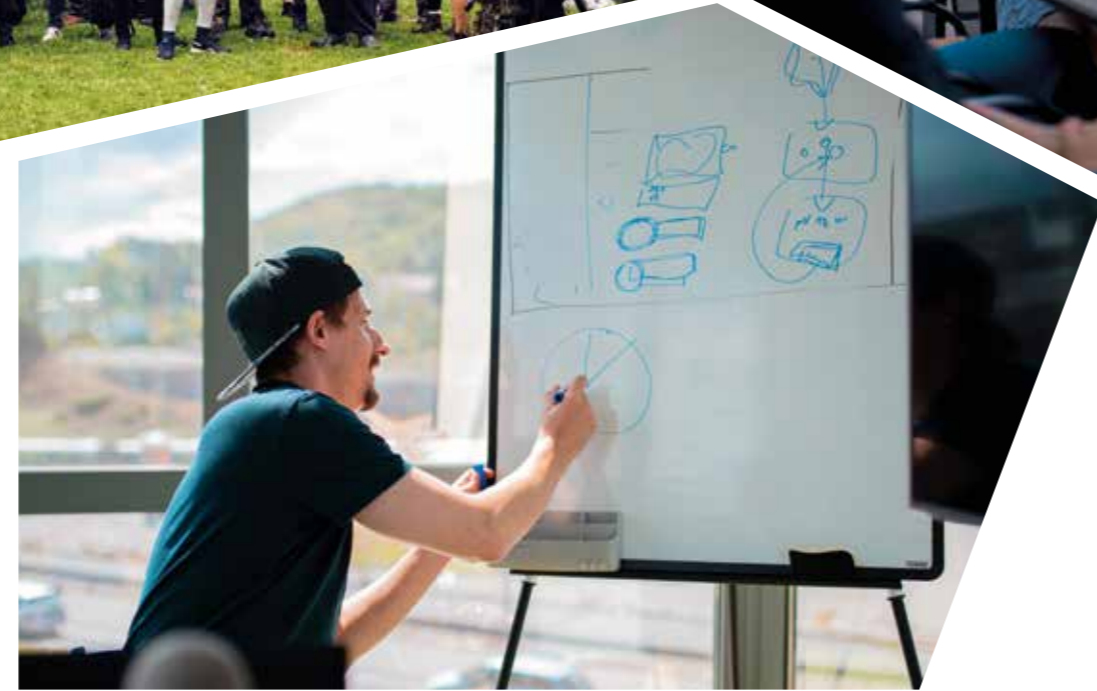

Where good ideas become fantastic games

Bohemia Incubator™ enables game makers to develop their prototypes and receive the help they need to prepare their product for full release.

Bohemia Incubator™ also offers financial support and publishing services to original projects with a unique vision. All you need is a playable prototype and an undying desire to flourish.

The games we typically get excited about are experimental and daring by nature, and reflect the three pillars of our company's philosophy: curiosity, creativity, and community.

/ OUR TEAM

Our 500+ employees hail from every corner of the world and represent all walks of life. While we always champion diversity, we also share a few key characteristics.

/INDEPENDENT

We set our own course. We set trends rather than follow them.

/FUNCTIONAL

How something works is far more important to us than how it looks.

/SOCIAL

Working together with likeminded Bohemians creates an electric kind of synergy, and makes for a fun and inspiring environment.

/AMBITIOUS

We prefer to reach for the stars instead of what's in front of us.

/EXPERIMENTAL

We don't believe in failure. We believe in learning from our mistakes.

/VISIONARY

We live in the present and design for the future.

/BOHEMIAN

We're independent artists who love to take risks.

/ OUR VALUES

Our values are founded upon three basic pillars:

/CURIOSITY

We're always exploring new ideas. That's because we're dedicated to creating experiences that challenge conventional thinking and gameplay.

/CREATIVITY

We want our team and players around the world to continue dreaming and pushing game development to greater heights.

/COMMUNITY

We invite everyone into our development process by offering players lively platforms to participate in, as well as a professional suite of tools for content creators to develop their projects.
